

EFC catalyzes funders to respond to environmental crises with ambitious and innovative solutions.

Are we advancing equity?

Are we being honest?

Are we grounded?

We are committed to advancing:

Responsible and mission-aligned asset investment

Increased power and resources for grassroots, community-led, youth-led solutions

Engagement with a larger, more diverse cross-section of Canadians to mobilize environmental action and shift cultural values

The re-tooling of our economy for regeneration, justice, and community wellbeing

Trust-based grantmaking

Our diverse members are advancing environmental solutions in different ways, and all are critically important. Our role is to support them by:

Nurturing relationships and catalyzing collaboration

Diversifying and growing our membership

Mobilizing knowledge, building skills and advancing thought leadership

Working collaboratively with other funder networks

Promoting transparency through open data
